

State Rapid Response Investigative Public Report

Office of Health Facility Complaints

Maltreatment Report #: HL307454784M
Compliance #: HL307458179C

Date Concluded: March 29, 2023

Name, Address, and County of Licensee

Investigated:

Lino Lakes Assisted Living
725 Town Center Parkway
Lino Lakes, MN 55014
Anoka County

Facility Type: Assisted Living Facility with
Dementia Care (ALFDC)

Evaluator's Name:

Katie Germann, RN, Special Investigator

Finding: Inconclusive

Nature of Investigation:

The Minnesota Department of Health investigated an allegation of maltreatment, in accordance with the Minnesota Reporting of Maltreatment of Vulnerable Adults Act, Minn. Stat. 626.557, and to evaluate compliance with applicable licensing standards for the provider type.

Initial Investigation Allegation(s):

The facility neglected the resident when the resident did not receive her anti-psychotic medication (Abilify) as prescribed. The resident experienced increased psychiatric symptoms.

Investigative Findings and Conclusion:

The Minnesota Department of Health determined neglect was inconclusive. The resident was administered Abilify 10 days late one month, and 10 days early the next month. However, it could not be determined if the resident had increased behaviors or psychiatric symptoms related to the error.

The investigator conducted interviews with facility staff members, including nursing staff and unlicensed staff. The investigation included review of the resident's medical record, employee records, facility medication incident reports and errors, and facility policy and procedures. Onsite observations of medication administration were completed.

The resident resided in an assisted living with diagnoses including delusional disorder, psychotic disturbance, mood disturbance, dementia, and anxiety. The resident had no current service plan in place, however, facility staff indicated the resident received medication management services.

An outside report indicated the resident was having increased behaviors such as spitting out food. According to the report, the resident had a history of spitting out her food and was prescribed medication (Abilify) related to her mental health diagnoses. The report indicated the resident was to receive an Abilify injection on the 13th of every month. The facility medication administration record had no documentation the resident received the Ability injection for three consecutive months.

The resident's medication administration record indicated the resident was prescribed an Abilify injection one time monthly on the 13th. The resident's medication administration record contained no documentation the resident received the Ability for 3 months in a row, October, November, and December 2022.

The residents nursing progress notes indicated the resident received Abilify injections by the nurse in October, November, and December 2022. In November 2022, the Abilify injection was administered 10 days late, and in December 2022, the Abilify was administered 10 days too soon. There was no documentation the provider was notified of the error.

When interviewed a facility nurse stated the resident received the Abilify injections, however, administration was documented in the progress notes and not in the resident's medication administration record. The nurse stated the resident had no changes in behaviors when the Abilify was not administered timely, however, the facility had no documentation regarding any of the residents' behaviors.

In conclusion, the Minnesota Department of Health determined neglect was inconclusive.

Inconclusive: Minnesota Statutes, section 626.5572, Subdivision 11.

"Inconclusive" means there is less than a preponderance of evidence to show that maltreatment did or did not occur.

Neglect: Minnesota Statutes, section 626.5572, subdivision 17

Neglect means neglect by a caregiver or self-neglect.

(a) "Caregiver neglect" means the failure or omission by a caregiver to supply a vulnerable adult with care or services, including but not limited to, food, clothing, shelter, health care, or supervision which is:

(1) reasonable and necessary to obtain or maintain the vulnerable adult's physical or mental health or safety, considering the physical and mental capacity or dysfunction of the vulnerable adult; and

(2) which is not the result of an accident or therapeutic conduct.

Vulnerable Adult interviewed: No, unavailable
Family/Responsible Party interviewed: No
Alleged Perpetrator interviewed: Not Applicable

Action taken by facility:

No action was taken by the facility.

Action taken by the Minnesota Department of Health:

No further action.

0 000	Initial Comments *****ATTENTION***** ASSISTED LIVING PROVIDER LICENSING CORRECTION ORDER In accordance with Minnesota Statutes, section 144G.08 to 144G.95, these correction orders are issued pursuant to a complaint investigation. Determination of whether a violation is corrected requires compliance with all requirements provided at the statute number indicated below. When a Minnesota Statute contains several items, failure to comply with any of the items will be considered lack of compliance. INITIAL COMMENTS: #HL307457744C/#HL307454543M #HL307458179C/#HL307454784M On February 16, 2023, the Minnesota Department of Health conducted a complaint investigation at the above provider, and the following correction orders are issued. At the time of the complaint investigation, there were 100 residents receiving services under the provider's Assisted Living with Dementia Care license. The following correction orders are issued for #HL307457744C/#HL307454543M, tag identification 2310 and 2360.	0 000	Minnesota Department of Health is documenting the State Licensing Correction Orders using federal software. Tag numbers have been assigned to Minnesota State Statutes for Assisted Living Facilities. The assigned tag number appears in the far left column entitled "ID Prefix Tag." The state Statute number and the corresponding text of the which are in violation of the state requirement after the statement, "This Minnesota requirement is not met as evidenced by." Following the evaluators ' findings is the Time Period for Correction. PLEASE DISREGARD THE HEADING OF THE FOURTH COLUMN WHICH STATES,"PROVIDER'S PLAN OF CORRECTION." THIS APPLIES TO FEDERAL DEFICIENCIES ONLY. THIS WILL APPEAR ON EACH PAGE. THERE IS NO REQUIREMENT TO SUBMIT A PLAN OF CORRECTION FOR VIOLATIONS OF MINNESOTA STATE STATUTES. THE LETTER IN THE LEFT COLUMN IS USED FOR TRACKING PURPOSES AND REFLECTS THE SCOPE AND LEVEL ISSUED PURSUANT TO 144G.31 SUBDIVISION 1-3.

02310	Continued From page 1 service plan subject to accepted health care standards. This MN Requirement is not met as evidenced by: Based on interview and record review, the licensee failed to ensure care and services were provided according to a suitable and up-to-date plan, and subject to acceptable health care and medical, or nursing standards for one of one resident (R1) reviewed with pressure ulcers and/ or wounds. Facility nursing staff failed to ensure the wounds were monitored, and failed to ensure physician orders were implemented to prevent the wounds from worsening. R1's wounds continued to worsen resulting in exposed bone and tendons between the third and fourth toes. This practice resulted in a level three violation (a violation that harmed a resident's health or safety, not including serious injury, impairment, or death, or a violation that has the potential to lead to serious injury, impairment, or death), and was issued at an isolated scope (when one or a limited number of residents are affected or one or a limited number of staff are involved or the situation has occurred only occasionally). Findings include: R1's diagnoses included type 2 diabetes, peripheral vascular disease, a left great toe amputation, and venous wounds on both feet. The licensee was unable to provide a service plan for R1. R1's most recent assessment dated July 14, 2022, indicated R1 had decreased circulation to his feet and legs due to diabetes. There was no	02310

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (EACH DEFICIENCY MUST BE PRECEDED BY FULL REGULATORY OR LSC IDENTIFYING INFORMATION)	ID PREFIX TAG	PROVIDER'S PLAN OF CORRECTION (EACH CORRECTIVE ACTION SHOULD BE CROSS-REFERENCED TO THE APPROPRIATE DEFICIENCY)		(X5) COMPLETE DATE
02310	Continued From page 2 documentation regarding any wounds. R1's provider note dated January 13, 2023, indicated R1 diagnoses included peripheral vascular disease with lower extremity ulcerations with osteomyelitis (swelling of bone), and multiple ulcerations of right foot and toes. The ulcerations progressed to the point where R1 had exposed bone and tendons between the third and fourth toes with eschar (dead tissue) on the side of the right fifth toe. R1's provider note dated January 13, 2023, indicated R1 wound care order included instructions to keep the wound dry and avoid moisture. The provider note indicated R1 showered daily and occasionally R1's wound was wet. The provider note also indicated R1 had a regular skilled nursing wound care by home health (outside provider) three times per week. In addition, R1 had a new prescription for Bactrim (an antibiotic) and an order for a right foot X-ray on December 27, 2022. R1's medication administration record (MAR) for December 2022, and January 2023, indicated the licensee started R1's Bactrim on January 2, 2023, 6 days after the antibiotic was ordered on December 27, 2022. There was no documentation the facility staff transcribed, scheduled, and/ or arranged for R1's X-ray. Review of R1's provider note dated January 3, 2023, indicated, "upon entering patient's room today, dressing was saturated". The note indicated staff changed R1's wet dressing. A MAARC (Minnesota Adult Abuse Reporting Center) report dated January 4, 2023, indicated facility staff failed to notify R1's provider when	02310

02310	Continued From page 3 they failed to administered R1's Bactrim for 10 days and the facility did not complete the X-ray which was ordered December 27, 2022. The home care nurse discovered the facility had not implemented the Bactrim or obtained the X-ray. The home care nurse contacted the physician and implemented the orders. A home care communication note dated January 9, 2023, indicated, "right foot lateral foot/toes not much improvement, no odor today. Wounds devitalized (lack of regeneration) tissue. Vital signs within normal limits, MRI tonight, surgeon Wednesday." There is no evidence the facility nursing staff observed R1's wounds. The licensee failed to provide wound assessments, documentation of the wound and wound condition, a service plan with any wound documentation, evidence of interventions in place to promote wound healing, and direction to staff to keep R1's wound clean and dry. During an interview on February 16, 2023, at 1:00 p.m., registered nurse (RN)-A stated she was aware R1 had provider orders from December 27, 2022, for Bactrim and an X-ray of R1's foot. RN-A stated the orders were not implemented until January 2, 2023. During a follow up interview on February 28, 2023, at 11:20 a.m., RN-A stated the facility was short of nursing staff so it was difficult to complete wound care, wound documentation, wound assessments, or medication reconciliation. RN-A stated the facility had no documentation of R1's wounds. The licensee's policy titled Skin Monitor policy	02310

02310	Continued From page 4 dated August 1, 2022, indicated the registered nurse is responsible for assessing each tenant's skin upon admission and when staff members or residents report skin changes. The policy indicated Cornerstone Communities do not care for complex wound needs and the nurse will notify provider to manage wound such as home health. The policy indicated the nurse will implement wound/pressure injury care once the orders have been obtained by adding them to the tenant's individualized plan of care and educating staff on care to be provided. The policy also indicated a licensed nurse is to assess the wound weekly unless otherwise instructed the tenant's physician by utilizing the "Weekly Wound Form" assessment or the "Weekly Wound Note" assessment in electronic record for documentation and should be completed until the wound has resolved. No further information was provided. TIME PERIOD FOR CORRECTION: Seven (7) days	02310		
02360	144G.91 Subd. 8 Freedom from maltreatment Residents have the right to be free from physical, sexual, and emotional abuse; neglect; financial exploitation; and all forms of maltreatment covered under the Vulnerable Adults Act. This MN Requirement is not met as evidenced by: The facility failed to ensure one of one residents reviewed (R1) was free from maltreatment. Findings include:	02360	No Plan of Correction (PoC) required. Please refer to the public maltreatment report (report sent separately) for details of this tag.
