Office of Health Facility Complaints

Maltreatment Report #: HL326497785M
Compliance #: HL326494593C

Date Concluded: October 21, 2023

Name, Address, and County of Licensee

Investigated:

Rivers Edge Assisted Living
11 Minnesota Avenue South
Aitkin, MN 56431
Aitkin County

Facility Type: Assisted Living Facility (ALF)

Evaluator's Name:

Lisa Coil, RN Special Investigator

Finding: Substantiated, facility responsibility

Nature of Investigation:

The Minnesota Department of Health investigated an allegation of maltreatment, in accordance with the Minnesota Reporting of Maltreatment of Vulnerable Adults Act, Minn. Stat. 626.557, and to evaluate compliance with applicable licensing standards for the provider type.

Initial Investigation Allegation(s):

The facility neglected the resident when the facility failed to provide supervision and the resident exited the facility unsupervised. The facility received a call from dispatch stating the resident was seen in town unsupervised.

Investigative Findings and Conclusion:

The Minnesota Department of Health determined neglect was substantiated. The facility was responsible for the maltreatment. The facility failed to identify and implement interventions to prevent the resident from exiting the facility unsupervised.

The investigator conducted interviews with a member of management and unlicensed staff. The investigator contacted the resident's family member. The investigation included review of the resident's record, and facility policies and procedures. Also, the investigator toured the facility and completed observations.

The resident resided at an assisted living facility. The resident's diagnoses included psychosis, bipolar, anxiety, and insomnia. The resident's care plan indicated the resident was not a risk of elopement, had no history of elopement or wandering, and had impaired judgment due to cognitive decline. The resident's assessment indicated the resident was independent with walking, had memory problems, asked staff to go with to the gas station and the bank, and did not leave the facility without an escort. The resident's service delivery record indicated the resident received behavior management services but was not receiving any wellness or safety checks prior to the incident.

The progress notes indicated the resident had increased confusion, restlessness, and wandering for approximately eight (8) weeks on multiple occasions leading up to the incident. The notes indicated the resident would be up all night, would sit and lie down on the hallway floor. The notes indicated staff would assist the resident to bed, the resident would get back up, sometimes get dressed, and request staff to assist her right back to bed.

An incident report indicated the county dispatch called the facility at 5:10 p.m. and notified staff the resident was found a block north of the facility. The same document indicated at 4:20 p.m. the resident asked the registered nurse to take her to bank. At that time, the registered nurse informed the resident it was Saturday and bank was closed. The resident told the registered nurse she would wait and go to the bank on Monday, walked to lobby of the facility, and went to bathroom. According to the report, a review of the facility camera footage showed the resident leaving the facility at 4:23 p.m.

Progress notes following the incident indicated the resident told staff she was very confused and not sure how she got where she was. The note further indicated the resident wanted to go to the gas station to buy cigarettes later the same evening.

During an interview, a family member stated the resident used to walk to the bank and convenient store unsupervised in the past. The family member stated the resident's memory has progressed to a point she should not be going anywhere by herself.

During an interview, an unlicensed caregiver stated the resident wandered about the facility and was at risk for exiting the facility. The unlicensed caregiver recalled one time the resident was downtown, which may have been this incident, and two other times when the resident exited the facility unsupervised. The unlicensed staff member stated staff had to go out to the patio with the resident when she wanted to smoke and if she was down on first floor staff had to watch her. The unlicensed staff member stated since this incident staff do more frequent reassurance checks on the resident.

During an interview, a member of management stated she did not believe the resident was a risk for elopement prior to this incident but did have a change in cognition. The member of management stated the resident should have been reassessed with the behaviors she was exhibiting.

In conclusion, the Minnesota Department of Health determined neglect was substantiated.

Substantiated: Minnesota Statutes, section 626.5572, Subdivision 19.

“Substantiated” means a preponderance of evidence shows that an act that meets the definition of maltreatment occurred.

Neglect: Minnesota Statutes, section 626.5572, subdivision 17

Neglect means neglect by a caregiver or self-neglect.

(a) "Caregiver neglect" means the failure or omission by a caregiver to supply a vulnerable adult with care or services, including but not limited to, food, clothing, shelter, health care, or supervision which is:

(1) reasonable and necessary to obtain or maintain the vulnerable adult's physical or mental health or safety, considering the physical and mental capacity or dysfunction of the vulnerable adult; and

(2) which is not the result of an accident or therapeutic conduct.

Vulnerable Adult interviewed: No, declined.

Family/Responsible Party interviewed: Yes.

Alleged Perpetrator interviewed: Not Applicable.

Action taken by facility:

The facility assessed the resident for elopement intervention needs.

Action taken by the Minnesota Department of Health:

The responsible party will be notified of their right to appeal the maltreatment finding.

The facility was found to be in noncompliance. To view a copy of the Statement of Deficiencies and/or correction orders, please visit:
